

Look, Listen & Learn. Trio Book Book 2

Michiel Oldenamp & Jaap Kastelein. Edited By Philip Sparke

Welcome to the *Trio Book*. This volume complements part 2 of the method *Look, Listen & Learn* and can be used either in conjunction with the method book or on its own. Because I've had such a terrific reaction to the first *Trio Book*, I have asked the composers Jacob de Haan and André Waignein to write some more great pieces for this book.

Of course, they are a little bit more difficult than those in the first *Trio Book*, but if you have progressed to the second method book, they won't cause you too many problems!

It's important for your teacher to know that the books for the various other instruments cannot be combined with this book.

Musically yours,

Dr Checkup

Contents
